

# Corrections to “InSAR Phase Unwrapping Error Correction for Rapid Repeat Measurements of Water Level Change in Wetlands”

Talib Oliver-Cabrera<sup>1</sup>, Cathleen E. Jones<sup>2</sup>, *Member, IEEE*, Zhang Yunjun<sup>3</sup>, and Marc Simard<sup>4</sup>

**I**N THE above article [1], Table I(b) cited an incorrect reference number. Reference [12] should have been given as [13], provided here as [2].

The reference correction also affects the text discussion of Table I(b). The correct text should read: “Applying phase closure correction first and bridging second yielded better correction performance with the new algorithm, whereas the opposite is true for the algorithm in [13], which has significantly poorer performance [see Table I(b)].”
